

The Stonehenge School IT and Computing Journey- Year 7

Department Vision

"That a pupil will receive a better Computer Science or IT education at The Stonehenge School compared with any other similar school in the UK"

DATA & DATABASES

Working with Mi6 you will help to solve an evil plot by using data and databases. Go Bond!

NETWORKS

Create an article on Networks for Network Magazine! Learn how to create Media products.

PROGRAMMING 2

We introduce you to a text based programming language called Python in a fun way

E-SAFETY

We refresh the students on the latest online dangers including how to stay safe.

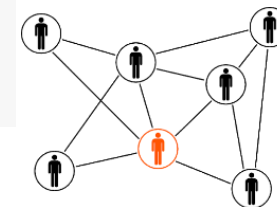

SKILL UP

We spend time teaching basic computer skills, how to use a network and introduce you to your email and other systems.

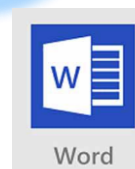

START HERE

AUTUMN TERM

Office 365

SPRING TERM

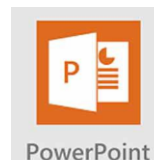

WORD PROCESSING

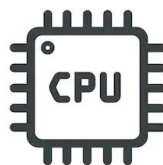

We learn how to word process, use key features plus how to mail merge using Microsoft Word

PRESENTATION

We learn how to present information (thinking about audience and purpose too) in the form of text, images and animation using advanced features of Microsoft Powerpoint.

BLETCHLEY PARK

PROGRAMMING 1

Lets learn the key programming constructs (sequence, selection, iteration) in a fun way! Lets make a helicopter rescue game! ☺

SUMMER TERM

HARDWARE & COMMUNICATIONS

Get your hands on a CPU, RAM, Disc Drives and a Motherboard! But the question is what do they all do?

"We follow the National Curriculum at KS3 and build on what is learnt at KS1 and KS2. We try to make lessons interesting, fun and real world".
