

DRAMA

“Drama is a subject that gives you the platforms to experience the world we live in. It allows us to be creative, to troubleshoot and find our own passions both in the world of theatre and beyond. Here at the Stonehenge School the Drama department takes pride in our curriculum

and our students, we work with them to make sure there are no ceilings to cap the height of their potential!”

Mr S Wood - Head of Drama

Our Drama studio – The Cave – is a large, technically well -equipped acting space with versatile staging, advanced sound system and excellent lighting. The School Theatre is also a well-equipped venue, with a full lighting rig, including state-of-the-art LED lanterns and a new DJ lighting system. Students now are encouraged to enter exams as either performance or technician under the latest specification.

The Drama Department has an extensive range of costumes as well as numerous accessories. Should you be able to support us by donating any clothing that may be of use please get in touch!

Curriculum Intent

Drama at KS3 is designed to excite, engage and introduce pupils to worldly concepts that will develop their understanding and control of emotions and issues. It gives pupils the tools to lay groundwork for further exploration at GCSE.

Drama at KS4 is designed to take all skills introduced at KS3 and use them as a springboard to progress their skills in performance and design. Students have the opportunities to be experimental and creative with exam material. We deliver the AQA GCSE Drama specification, this enable students to become theatre makers, confident performers, dramaturgs, designers, stylists and creators across a range of supporting roles.
