

FOOD TECHNOLOGY/CATERING

Careers Information

A passion for food can lead to a wide range of career opportunities, working in hotels, restaurants, or tourist venues. There is a range of career paths – in engineering and manufacturing, agriculture, research, nutrition and health, environment and sustainability, logistics, audit and legal, retail sales and customer service, as well as catering and hospitality, leisure and tourism.

The UK food systems employs almost 4 million people, that's about 14 percent of the national workforce, in a huge range of exciting and rewarding – often global - roles.
