

## FOOD TECHNOLOGY/CATERING

### Extra Curricular

At GCSE, pupils are invited back for extra theory support and in Year 11 will have the chance to sign up to a period 6 lesson.

There is always opportunity to stay behind to complete coursework in Year 11.

In December 2019 we had representatives from the Royal Navy join our Year 10 and 11 pupils to demonstrate some cooking techniques and talk about careers in the Navy.

France Trip - In May 2019, students from Year 9 and 10 went to France to experience French cuisine and visit several factories from caramel, chocolate, bread and goat's cheese.

Where possible, the Food Technology department will bring in visitors from a variety of Hospitality and Catering backgrounds to give demonstrations and talks about the industry.
