NHS Test and Trace: COVID-19 testing for staff and Pupils

Dear Parent or guardian,

We are working to keep our school as safe as possible. You may have heard that testing for those without coronavirus symptoms is beginning across the country using new, quicker COVID-19 tests known as 'lateral flow tests'.

Along with the other protective measures we are taking, these tests will help staff and pupils to remain in school safely. Up to one third of people who have coronavirus experience no symptoms. By testing we will help to stop the virus spread and help to keep our school open as safely as possible. The testing of school age children will also help to protect families and the wider community. The test is voluntary, but I would encourage everyone to take it. **Where consent is not given, pupils will need to self-isolate in the event of a positive test within their 'bubble'.**

We will be testing all staff and secondary school age pupils who want to participate from week commencing 11th January 2021 on a rolling programme. Dates relating to the exact schedule will follow later this week in accordance to the staggered start of term for different year groups. Pupils will be tested twice, with a gap of three days minimum.

I enclose an instructional leaflet with some more information.

If you are happy for your child to be tested, please fill in the form and consent statement via this link:

https://forms.office.com/Pages/ResponsePage.aspx?id=TqJfcwJ_I0qWrapZAWWf30hFgycHkFZGg6zv4-chUUNUMDVZNIo0Q01WVzJHMU1UOEEdCOTU3Tk1UVy4u

Those taking the test will be supervised by trained staff. The 'lateral flow' tests are quick and easy using a swab of your throat and nose. For under 18s, staff can oversee the swab process. Results (which take around half an hour from testing) will be shared directly with staff and pupils participating. Where participants are under 16, parents or legal guardians will be informed of a positive case. **We will not inform parents of negative cases.**

We know these tests work - in validation studies conducted by Oxford University and Public Health England, they were shown to be as accurate in identifying a case as a PCR test (99.68% specificity). The tests have lower sensitivity but they are better at picking up cases when a person has higher viral load, hence the need to test frequently.

Testing will be offered free of charge.

What if a pupil tests positive?

Participating staff and pupils who test positive will be informed about their results individually. Where participants are under 16, parents or legal guardians will also be notified. Guidance on safe travel and additional precautions will be provided along with test results.

Pupils will need to take a further 'PCR test' (similar to those done in local and regional testing sites) on the same day (or as soon as possible). The Stonehenge School will be able to provide these PCR test kits to perform at home or you can go to www.gov.uk/get-coronavirus-test or call 119 to book a follow-up test. If ordering a PCR test yourselves, you should choose to visit a drive-through test site if possible, as it is faster than requesting a home test.

During this time while they wait for the PCR result (via text / email) they will need to self-isolate. If the PCR test returns a positive result you will have to self-isolate and follow the guidance from NHS Test and Trace.

What happens if the test is negative?

They will be able to stay in school and resume their activities as normal. A pupil will only be told if they test positive on a 'lateral flow' test, so if you do not hear you can assume it was negative. A small number of pupils may need to repeat the test if the first test was invalid or void for some reason.

What if a close contact at school/college tests positive?

A close contact of someone in school who has tested positive for COVID-19 will be able to return to school if they agree to be tested once a day for 7 days (excluding weekends) and the test is negative. **If they do not want to take the test, they will need to self-isolate as per the national guidelines.** This does not apply to household members or close contacts outside of school who will still need to self-isolate. Further details will be provided at the time, but if you would prefer to self-isolate instead of doing daily testing, you can.

What if my child develops symptoms?

This testing programme at school is for people with no symptoms. If your child develops symptoms at any time (such as a high temperature; a new, continuous cough; or a loss or change to their sense of smell or taste) they must immediately self-isolate, and book a test by calling 119 (England, Wales and Northern Ireland) or 0300 303 2713 (Scotland) or visiting <https://www.gov.uk/get-coronavirus-test>.

Yours faithfully,

N D Roper
