1. Rationale:

The Stonehenge School has established procedures to support those students with Special Educational needs. This builds upon the work of all staff who are committed to provide a broad and balanced approach to learning. The aim is that all students can participate fully in the life of the school and achieve their full potential.

The Children & Families Act 2014 requires the school to support children with Special Educational Needs. This is found within the new Code of Practice which schools are advised to follow. The Code provides guidance on the way schools may identify children with special needs, assess the extent of the difficulties and seek outside professional advice and support, to minimise such difficulties. It outlines the procedures necessary for 'formal assessment' of students and how a formal statement of special educational needs may be designed. Throughout the Code of Practice there is a particular emphasis on the way that parents or guardians are to be informed and involved in the process.

2. Objectives:

The three main objectives of the school's Special Educational Needs policy are to ensure that:

Every effort is made to offer students with Special Educational Needs their entitlement to a broad, balanced and relevant curriculum.

All students, including those with Special Educational Needs have the opportunity to participate fully in the life of the school.

The school continues to work towards developing effective partnerships with the parents/guardians of students with special educational needs.

3. Implementation:

Admission to the school.

Existing admission procedures will apply. The School has a Skills Development Centre dedicated to support students with additional needs.

Prospective parents or guardians who wish to discuss whether the school has the facilities to cater for their child's special educational needs are encouraged to contact the SENDCO.

Identification and Assessment of Students with Special Educational Needs

The school currently identifies students with Special Educational Needs through:

- Liaison with the student's previous school
- Parental concerns
- Its own referral system /teacher assessments
- Reading tests

- Referral from colleagues, external agencies or the student Observations and/ or records maintained by Teaching Assistants National Curriculum assessment procedures.
- Wiltshire Indicators and Provision Document

As advised in the Code of Practice the school follows a staged approach to Special Educational Needs.

SEN Support (K)

The class teacher will:

- Support the student in the normal classroom context with Quality First Teaching
- Monitor and review the student's progress in their subject area
- Use the SEN tab on ClassCharts to follow information relating to specific type of need, the SEN strategies listed, and the One Page Profiles, EHCPs and any additional documents.

The SEN department in liaison with the subject teacher(s), tutor and Progress Leaders will:

- Collate information
- Monitor and review the student's progress
- Refer the student to the Skills Development Centre for targeted support if relevant.

The SENDCO or Delegated Skills Development Centre team member in liaison with relevant staff will:

- Draw on the advice of outside specialists from education, health and Children and Family Services as appropriate
- Consult with parents/guardians and students
- Monitor and review the student's progress
- Identify strategies to support the student
- Notify the Head teacher, Senior Leadership Team and Progress Leaders of the action being taken
- Target further resources to the student
- Apply for ELP funding if appropriate
- Create one page profiles and My Support Plans if appropriate

EHCP Students

Students who have an EHCP have their needs clearly identified and minimum level of provision clearly stated by the LA. Class teachers and the SEN department will ensure all of the above for EHCP pupils as per SEN support. They will also be supported through additional transition when entering Year 7.

Stonehenge School Provision Map by Area of Need and Wave of Support

Area of Need	All students, where appropriate	Plus for some students – Catch up	Plus for a few students
Cognition and Learning	Differentiated curriculum planning, activities, delivery and outcome Increased visual aids/modelling etc, Visual Timetables Use of writing Frames Access to ICT Target setting Task Plans	Catch up programmes – Literacy and Numeracy In class support from TA Withdrawal (smaller group work) Individualised timetable at KS4 Private Study at KS4 Reader pens	Intense literacy/numeracy support, including phonics. Test/Exam Access arrangements. Alternative accreditation / vocational courses Advice from EP Advice from SENSS Coloured books/overlays Laptops One to one support
Communication and Interaction	Differentiated curriculum planning, activities, delivery and outcome e.g. simplified language. Key words increased visual aids / modelling etc Visual timetables Use of symbols Structured school and class routines	In class support with focus on supporting speech and language ICT Communication Skills	Speech and Language Advice/Input from Autism Outreach support/advice ICT SALT Intervention Laptops
Emotional, Behavioural and Social/Social Emotional Mental Health	Whole school behaviour policy Whole school /class rules Whole school/class rewards and sanctions systems	Social Skills group training Anger Management KS4 Work related learning In-class support for supporting behaviour targets, access, safety Involvement of EWO,	Individual Counselling PSP Re integration programme Advice from EP Peer mentoring Outreach from CAMHS ELSA sessions/groups
Sensory and Physical	Flexible teaching arrangements Staff aware of implications of physical impairment Writing slopes Pencil grips Medical support/advice	Brain Gym exercises Dyspraxia exercises Keyboard training Additional fine motor skills practice In class support for supporting access and safety	Individual support in class during appropriate subjects Advice/Input from HI, PI, OT AND VI Teachers Use of appropriate resources

Wave One – Quality First Teaching	Wave Two – Interventions for Catch-up	Wave Three SEN Strategies

CONCERNS OR COMPLAINTS

Sometimes misunderstandings can arise and parents/guardians may feel they wish to address a concern or complaint about the way that their child's Special Educational Needs are being met. The school has a Complaints Policy and Procedure, which can be found on the school website, and this promotes early and informal resolution wherever possible, so in the first instance, the parent/guardian should ask to meet with SENDCO to discuss any concerns. Clearly, if this does not provide a satisfactory response, then the complaint procedure should be referred to.

STAFFING

Special Educational Needs provision is co-ordinated by the SENDCO. The SENDCO's responsibilities are:

- Monitoring the implementation of policy
- Evaluating the effectiveness of provision
- Co-ordinating the day to day operation of the school's Special Educational Needs Policy
- Advising class and subject teachers
- Monitoring provision for students at SEN Support and EHCPs
- Co-ordinating the Special Educational Needs assessment and record keeping procedures within the school
- Working with parents/guardians of students with special educational needs
- Co-ordinating contact with external agencies, including the Educational Psychology Service, Medical, Social Services and voluntary bodies
- Advising and supporting members of both the Learning Support and Pastoral teams
- Managing the specialist resources that exist within the school

In addition to the specialist personnel, all Stonehenge's teaching staff are made aware of their responsibilities towards students with Special Educational Needs.

MANAGING PROVISION FOR STUDENTS WITH SPECIAL EDUCATIONAL NEEDS

A range of strategies are utilised to support students with Special Educational Needs. These include:

- Individual teaching to support specific areas of the curriculum, such as literacy or numeracy
- Small group teaching
- In-class support where a member of the Skills Development team offers assistance to students within a mainstream classroom
- Individual or group support to address such issues as raising student self-esteem or modifying behaviour

- Special access arrangements during examination and test situations where a student's assessment needs justify the use of this provision
- Adaptation of classroom work where this is appropriate

RESOURCES

Part of the school's staffing budget is earmarked to support students with Special Educational Needs.

The resources are managed by:

- SENDCO

Other resources include:

- Skills Development Centre
- Access to a Counsellor
- Senior Teaching assistants in charge of ELSA provision and Academic Interventions
- Access to ICT, Nessy, My Maths, Sam Learning, Toe by Toe, Catch up,
- Books and material to assist students of differing abilities
- Specialist SEN Teacher
- ELSA

The school endeavours to both review and update its resources for students with Special Educational Needs.

PARTNERSHIP WITH PARENTS/GUARDIANS

The Stonehenge School recognises that it is important that home and school work together. If this partnership is to work, it seems vital that:

- The Stonehenge School recognises that parents/guardians can offer important information about their child's strengths and weaknesses
- Confidential information is respected and only shared with those who need to know

If a parent or guardian is concerned about their child's Special Educational Needs, they are welcome to contact the SENDCO who will be happy to discuss the situation with them.

Opportunities for consultation are likely to include:

- Annual Reviews
- Parent/Teacher Consultation Evenings
- Meeting to discuss one page profiles
- Parents are encouraged to contact the school whenever a concern arises

EXTERNAL SUPPORT

The school has a named medical Officer and School Nurse. Contact can also be made with the following agencies:

- The Education Psychology Service
- Child and Adolescent Mental Health Service
- The Education Welfare Service
- Child and Family Services
- EMAS
- CEAS
- CAMHS
- SENSS

The school will use these agencies where their advice might be helpful. The use of these agencies will, in all but the most exceptional circumstances, be sought following consultation with parents/guardians.

Parents/guardians are welcome to discuss with the SENDCO whether any of the agencies outlined above could provide help for their child.

TRANSITIONS:

The Stonehenge School regularly liaises with feeder Primary Schools about prospective students. This liaison includes:

- Visiting the school to meet teaching staff and/or students
- Attending Annual Reviews in Year 5/6 where it is felt our presence may prove helpful

When a student with Special Educational Needs transfers to us we endeavour to liaise with the appropriate personnel in their previous school. We also try to obtain any documentation the previous school may have that will assist us in planning provision. We also offer bespoke transition programmes.

Students with Special Educational Needs, who are approaching the end of their compulsory schooling, are helped to prepare for the experience by:

- Taster Days at local colleges
- Undertaking Work Experience placement in Year 10 and 11/Life Skills Work Experience
- Receiving Careers Guidance from the Integrated Youth Service
- Attending Open Days at local colleges of Further Education
- Undertaking visits to appropriate events that deal with the range of options post 16

GOVERNORS:

The Governing Body has a responsibility to provide and monitor provision made for Special Educational Needs.

The Governing Body evaluates the success of the provision by:

- Monitoring the volume of requests for the school to be named on the students' Education Health & Care Plan (EHCP)
- Monitoring the amount of the budget allocated to students/resources for Special Educational Needs support
- Annually reviewing the school's Special Education Needs policy.
- Consulting with the Senior Management Team about Special Educational Needs issues
- Using other relevant techniques to monitor progress and evaluate provision. This could include:
 - The performance of Special Educational Needs students in key Stage assessments
 - The number of GCSE courses, students with Special Educational Needs pursue
 - The GCSE examination results of students with Special Educational Needs
 - The destinations of students with Special Educational Needs after they have left The Stonehenge School
 - The results of diagnostic testing and/or Cognitive Ability Tests
 - Monitoring the number of students on the Special Educational Needs Register

FUNDING AND ALLOCATION OF PROVISION

The school's fund granted through the LA audit for Special Educational Needs is spent on meeting special needs. It is the policy of the Governing Body to spend this and in addition, make some additional provision from its own delegated budget. The number of children with Special Educational Needs in each school determines the additional money the school receives from the Local Authority to help meet students' special needs.

THE SCHOOL'S RATIONALE FOR ALLOCATING SUPPORT

Making decisions about the allocation of support is never easy and has to be made within existing levels of resourcing. At The Stonehenge School the allocation of support is prioritised as follows:

- **Students with an EHCP (previously referred to as a Statement of Special Educational Needs)**

These students have had a formal assessment that specifies the amount and type of support we have to provide.

- **Enhanced Learning Provision**

However, the authority has now introduced funding for students who require an Enhanced Learning Provision and this is not dependent on the student having an EHCP. This funding is sometimes allocated to students at SEN Support.

These students have significant difficulties their additional Special Educational Needs will usually be met through a combination of withdrawal modules, in-class support and other approaches that might prove helpful. The authority has delegated funding to the school to provide these resources.

These students have difficulties that may not require a withdrawal module but would benefit from additional in class support. In some cases withdrawal modules will be offered if further screening tests suggest that this will prove beneficial.

The school believes that those students at SEN Support can best have their needs met within the mainstream classroom. These students will be monitored to ensure they are progressing well. Screening test results and other data will also be used to ensure that these students' Special Educational Needs are monitored. If students fail to make progress then the level of their Special Educational Needs provision will be reviewed.
